### Overview

The Bahrain International Garden Show (BIGS), a premier regional event for horticulture, landscaping, and agriculture, took place from 19-23 February 2025 at Exhibition World Bahrain (EWB). Under the esteemed patronage of His Majesty King Hamad bin Isa Al Khalifa and organized by the National Initiative for Agricultural Development (NIAD), the event solidified its status as a key player in the regional agricultural sector. The event attracted over 20,000 visitors and hosted 128 exhibitions, featuring a mix of local and international organizations.

### Seamless Experience

EWB, known for its state-of-the-art facilities, played a crucial role in the success of BIGS. The exhibition was held in Hall 3, spanning 9,500 square metres, with innovative features that contributed to seamless experience for both exhibitors and attendees. The venue's cutting-edge amenities, advanced event management systems, and a diverse array of offerings ensured that BIGS delivered a world-class experience to its participants. The inauguration of the event by Her Royal Highness Princess Sabeeka bint Ibrahim Al Khalifa, Consort of His Majesty the King and Chairperson of the Advisory Council of NIAD, highlighted the event's significance and commitment to sustainable agricultural practices and local development.

### Remarkable Showcase Growth

This year's edition saw a remarkable growth in participation, with 128 exhibitors from various sectors related to horticulture, agriculture, and landscaping. Both local and international organizations exhibited their products and services, ranging from innovative gardening tools and machinery to sustainable agricultural practices. EWB's facilities enabled an effective showcase of cutting-edge technologies, green initiatives, and landscaping designs. The exhibition served as an important networking platform, allowing industry leaders, growers, and technology providers to share insights and build relationships that will drive the future of the horticultural and agricultural industries.

### Farmers' Market Pavilion Expansion

One of the key highlights of BIGS 2025 was the expansion of the Farmers' Market Pavilion. The enlarged pavilion provided additional space for local farmers, reflecting Bahrain's growing focus on sustainability and the promotion of homegrown products. This expansion allowed local farmers to display a wider variety of fresh, high-quality agricultural goods, facilitating direct interaction between producers and consumers.

### Impressive Turnout

BIGS 2025 saw an impressive turnout, attracting over 20,000 visitors across the four-day event. The blend of international and local exhibitors, coupled with the expanded offerings in the Farmers' Market Pavilion, ensured a diverse and enriching experience for attendees. The attendees had the opportunity to engage with experts, learn about the latest trends in agriculture and explore the most innovative solutions for sustainable horticulture and landscaping.

### EWB's Role in BIGS Success

Exhibition World Bahrain's contribution to the success of BIGS cannot be overstated. The venue's ability to host large-scale events with such diverse requirements speaks to its versatility and commitment to providing exceptional event experiences. EWB's advanced infrastructure, coupled with its exceptional customer service and innovative solutions, ensured that BIGS 2025 ran smoothly and successfully. The venue's expansive facilities, modern services, and cutting-edge technological capabilities created an environment where exhibitors and visitors alike could connect, collaborate, and discover new opportunities within the agricultural sector. EWB's expertise in managing complex trade shows played a significant role in enhancing the event's overall experience and promoting the growth of the horticultural and agricultural industries.

**"The Bahrain International Garden Show is a long-anticipated event, and, alongside NIAD, EWB was well set to welcome hundreds of visitors over the four-day period. This edition has been another resounding success in hosting large-scale niche exhibitions, further solidifying EWB's role as a leading contributor to Bahrain's MICE industry."**
